

Capabilities Statement

COMPANY OVERVIEW

Founded in 2019 with a vision centered on delivering a personalized approach to engineering and technical services to our clients.

Our diverse expertise and collaborative culture allow us to thrive on the complexity of our projects by accepting new challenges and creating strategic solutions. Our expert engineers are well-versed in guiding projects through the planning, execution, and implementation phases, adhering to engineering standards and applicable regulatory codes.

We offer a comprehensive range of services. Our highly technical professionals are equipped to support our clients in areas such as construction management, engineering consulting, cost control, scheduling, commissioning/validation, compliance, technical documentation, maintenance, and other technical services.

AVANTE provides engineering services to keep your business moving forward.
